

WARNING!

GENETIC TESTS MUST BE ORDERED BY YOUR DOCTOR AND HAVE A MEDICAL NEED.

Some labs may offer genetic lab testing as part of a “free” health screening to get your medical details and steal your identity or for fraudulent billing.

BEFORE YOU AGREE TO GENETIC TESTING, MAKE SURE:

- The test is ordered by a licensed and credentialed doctor
- The genetic test is needed medically, and it is covered by your health plan

PROTECT YOURSELF FROM THIS SCHEME

These “free” health screenings, along with genetic testing, are given at a local health fair, senior housing, rec center or home health agency. The agent falsely affirms that your plan will pay for the test. He says you simply need to offer a cheek swab, your plan ID and medical data to get your test results.

Unfortunately, now they have your health plan number. Now, they can charge us thousands of dollars for tests that are not medically needed, or even for services that you never got. They also have private genetic information about your health.
